

THERMAL SEPARATION TECHNOLOGIES

Dryers

We extended our product range to include drying equipment custom designed to your needs through our business partner LÜBBERS Anlagen- und Umwelttechnik GmbH, a leading German manufacturer of custom engineered equipment for food and dairy products.

We can supply from key components to complete turn-key systems - everything to meet your drying requirements. Projects' size can range from pilot size dryers to large full scale industrial plants with end products ranging from powders, moist powder, liquid, wet-cake, fibrous or highly viscous pastes.

Scope

- Spray Dryers
- Fluidization Beds
- Cyclones
- Bag Houses and Bag Filters
- Rotary Atomizers
- CIP Systems
- Energy Recovery Systems
- Indirect Air Heat Exchangers
- Fire Extinguishing Systems
- Air Handling Units
 - including but not limited to:
 - Inlet Air Filters Systems
 - Desiccant Wheels
 - Condensation Dehumidifiers

EVAPORATION, CRYSTALLIZATION AND DRYING TECHNOLOGY FOR THE FOOD, DAIRY AND CHEMICAL INDUSTRIES
