

## THERMAL SEPARATION TECHNOLOGIES

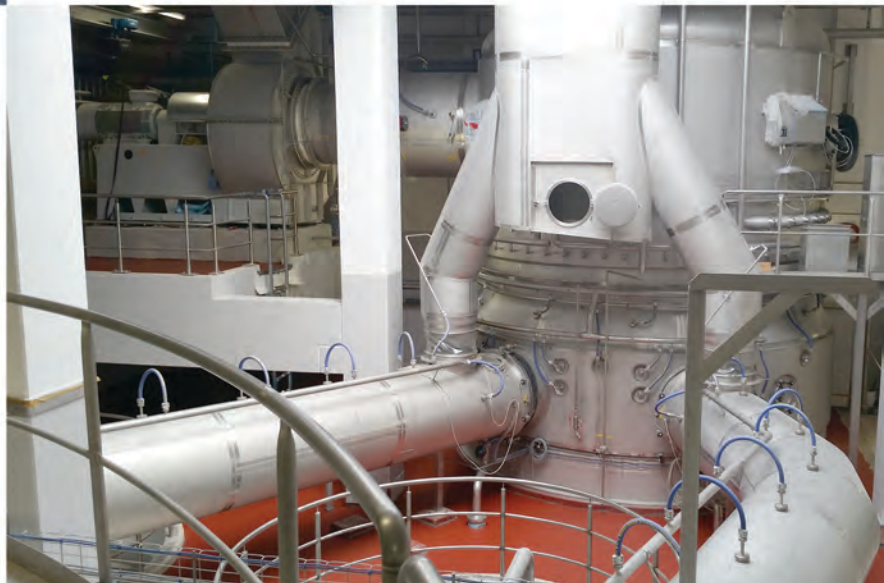

*We look for the best solution and evaluate your upstream and downstream conditions to create a perfect combination of processes that fit your current and future needs!*

***We get you the solution you need!***

- Design and supply of state of the art equipment
- Evaluation and recommendations for existing systems
- Tailored proven and innovative design

## Benefits

- Reduce fouling
- Optimize cleaning time
- Eliminate bacteriological issues
- Operational consistency
- Improved reliability
- Lower operational cost
- Higher product quality
- Competitive pricing
- Increase of profit

## EVAPORATION, CRYSTALLIZATION AND DRYING TECHNOLOGY FOR THE FOOD, DAIRY AND CHEMICAL INDUSTRIES
